EDUCATION

North Carolina State University, Raleigh, NC

Graduation: May 2026

B.S. Business Administration, IT Concentration, Minor: Computer Programming

GPA: 3.6

Relevant Coursework: Information Systems Development, Data Structures and Algorithms, Database Management

PROJECTS

U.S. Data & IT Job Market Analysis

- Analyzed 35,000 records across 824 occupations from the 2024 BLS OEWS dataset using Python, comparing salary levels, job concentration, and location
- Cleaned and prepared a large public dataset by filtering relevant columns, converting numeric fields, handling missing values, and creating regional groupings for analysis.
- Built visualizations including salary distribution, a regional salary comparison, a role-based boxplot, and a state-level opportunity scatterplot to identify stronger markets for data roles.

UFC Fight Analytics Dashboards

- Built a data model in Python from 8,400+ UFC fights spanning 2000–2026, then loaded into Power BI to power three interactive dashboards
- Cleaned and transformed multi-source HTML/CSV data using Pandas, NumPy, and BeautifulSoup
- Delivered insights into how weight class and gender can impact fight results

Movie Rental ETL Pipeline

- Designed an ETL pipeline using Python to extract, transform, and load data into a MySQL database
- Wrote SQL queries to identify trends and generate valuable business insights
- Containerized using Docker, allowing for scalable deployment

Canvas LMS Transition Analysis

- Led requirements gathering through stakeholder interviews and process analysis to support system transition
- Developed Software Requirement Specifications (SRS) and business rules using structured templates

EXPERIENCE

Data Analyst Intern, Klickly, Remote

May 2025 – August 2025

- Analyzed website and advertisement datasets using Excel, SQL, and Sigma, identifying trends that improved ad spend efficiency and increasing ROAS by 17%
- Collaborated cross-functionally to develop data-driven reports that supported strategic decision making
- Supported analytics by tracking performance metrics and identifying process improvement opportunities

Merchandise Representative, South Coast Brands, Raleigh, NC

August 2025 – April 2026

- Collaborated with store managers to optimize product placement and pricing strategies to improve operational efficiency
- Identified gaps in merchandising processes and provided recommendations to improve sales

ACTIVITIES

Treasurer, Chi Psi Fraternity - Raleigh, NC

November 2024 – November 2025

- Manage \$70,000 in financial assets and oversee budgeting processes using Excel
- Worked with position holders to plan fundraising and charity events, including flagship Pink Tie charity event, helping to raise over \$10,000 for the Pretty in Pink Foundation

SKILLS

Technical Tools: SQL, Python, Excel, Tableau, Sigma

Data & Analysis: KPI Tracking, Dashboard Development, Data Cleaning, Data Visualization

Strategy & Operations: Requirements Gathering, Growth Analysis, Use Case Development, SDLC
